

Dr Michael O'Loan

MBChB, PGCert Med Lead, FACEM, AFRACMA

Trauma Consultant | Emergency Physician | ICU Senior Registrar

AHPRA MED0002268242 • michael@verybanana.com

verybanana.com

PROFILE

Dual-trained Trauma Consultant and Emergency Physician coming to the end of ICU training and applying for the Transition Year Fellow positions. Currently completing an anaesthetics rotation as the final pre-TY requirement. Clinical interests centre on resuscitation of major haemorrhage, trauma team leadership, and resuscitative procedural skills. Alongside clinical practice I lead The Alfred Trauma Service's digital health portfolio, with active work in clinical data warehouse querying, workflow automation and applied AI in trauma critical care.

EDUCATION, QUALIFICATIONS AND AWARDS

MB ChB – University of Bristol, UK 2008 – 2013

Postgraduate:

AFRACMA – Associate Fellow of the Royal Australasian College of Medical Administrators Dec 2025

FACEM – Fellow of the Australasian College for Emergency Medicine Jul 2023

Biostatistics & Epidemiology (modules) – University of Queensland Aug 2022

PGCert Medical Leadership – Lancaster University, UK Jul 2015

Awards:

ACEM Buchanan Prize – 2023.1 OSCE highest score Jul 2023

CURRENT APPOINTMENTS

Trauma Consultant – Alfred Health Aug 2023 – present

Emergency Physician – Alfred & Sandringham Hospitals Dec 2023 – present

ICU Senior Registrar (Anaesthetics rotation) – Eastern Health Aug 2024 – present

MEDICAL EMPLOYMENT HISTORY

Locum Emergency Physician – Wangaratta, Shepparton, Albury Wodonga Hospitals 2023 – 2025

Alfred Health – Registrar, Emergency Medicine / ICU / Anaesthetics 2019 – 2023

Royal Children's Hospital – Paediatric Emergency Registrar 2021 – 2022

Christchurch Public Hospital (NZ) – Registrar, General Medicine / ID / ED / ICU 2016 – 2019

Canterbury DHB (NZ), Ashburton Hospital – Rural Medicine Registrar 2015 – 2016

Blackpool Teaching Hospitals NHS FT (UK) – Foundation Programme 2013 – 2015

SELECTED PROFESSIONAL COURSES

CICM Focused Cardiac Ultrasound	May 2026
ASUM Certificate in Clinician Performed Ultrasound (eFAST, AAA, lung)	2024 – 2026
Resuscitative Thoracotomy Animal Lab	Sep 2023
ALS2 – Instructor Potential	Jan 2023
The Procedures Course – Alfred Emergency Education Centre	Mar 2022
ECMO Cannulation – The Alfred	May 2021
ECMO Masterclass – The Alfred	Nov 2020
BASIC – Basic Assessment and Support in Intensive Care	Jun 2018
EDME Echo for Critical Care	Dec 2018
Advanced Paediatric Life Support	Mar 2016

TEACHING

Regular educator of medical students, junior doctors, registrars and consultants in emergency medicine, trauma, critical care, ultrasound and airway management – including curriculum development and simulation-based education.

The Procedures Course - International, consultant-focused, instructor	Mar 2024 – present
Alfred STAR Program – Trauma HMO and Registrar education	Aug 2023 – present
Alfred ED ACEM OSCE Preparation Program – Education Facilitator	Mar 2023 – present
Alfred ED Weekly Teaching	2017 – present
Critically Ill Airway Course (Melbourne, registrar-focused) – Instructor	Aug 2019
Monash University – Medical Student Mentor, Emergency Medicine	Feb – Aug 2021
Foundation Programme Simulation Liaison – University of Liverpool, UK	2013 – 2015

LEADERSHIP EXPERIENCE

Digital Health Lead, Alfred Trauma Service	2023 – present
Trauma representative – Surgical Services Digital Health Special Interest Group	2024 – present
Co-chair – Junior Medical Staff Advisory Committee (JAMSAC), Alfred Health	2020 – 2023
Clinical Lead – Alfred Night Handover Committee	2020
Member – ED Clinical Informatics Committee, Alfred Health	2020 – present
Member – Doctor Workflow Improvement Group, Alfred Health	2020 – present
Night Clinical Lead Program – Alfred Health	2020 – 2023
EM Senior Registrar – Leadership and Operations	Feb – Aug 2021
Champion User – Phase 2 eTQC rollout, Alfred Health	Jun 2019
Editorial Committee – Christchurch ED Newsletter	2018 – 2019
President – Blackpool Victoria Hospital Mess Committee (elected)	2014 – 2015

DIGITAL HEALTH, CLINICAL INFORMATICS AND WORKFLOW AUTOMATION

Focus on clinician experience, operational efficiency and patient safety through applied technology. Active portfolio across data warehouse querying, workflow automation, AI-supported clinical tools, and bespoke healthcare software development.

- **JMS handover digitisation** – clinical lead for hospital-wide transition from paper to digital handover during and post-COVID, partnering with executive, digital health, medical workforce and frontline clinicians.
- **Automated trauma radiology meeting list (clinical lead)** – PowerApps/SharePoint solution supporting twice-daily governance meetings; reduced JMS workload and improved case-review accuracy and timeliness. Now expanding to other clinical services.
- **Trauma lead, Alfred Radiology Clinical Decision Support** – trauma service lead, integrating AI-supported decision tools (MedCurrent OrderWise) into radiology requesting workflows.
- **Alfred Data Warehouse Trusted User** – direct access to clinical databases supporting audit, research and service improvement.
- **Tooling delivered** – Power BI dashboards and PowerApps for trauma governance, tertiary survey tracking, nurse practitioner workload monitoring, billing automation and workflow optimisation.
- **Technical stack** – Python (PyTorch, scikit-learn), SQL Server, SharePoint/Power Platform, web technologies, C#; ongoing applied data science and clinical software development.

QUALITY IMPROVEMENT AND CLINICAL AUDIT

Automating Trauma Billing – PowerApps solution	2024 – ongoing
Automating Trauma Radiology Review – Power BI / PowerApps solution	2022 – 2024
Trauma Service Weekly Governance Audit – Registrar Lead	2022
Audit of compliance with pneumonia guidelines	2018

CLINICAL SCOPE

- **Major trauma (primary subspecialty)** – resuscitation, trauma team leadership, operative and non-operative management, post-resuscitation critical care.
- **Complex case mix** – polytrauma, traumatic brain injury, spinal injury, thoracic trauma, major haemorrhage, peri-arrest physiology, ECMO-supported patients.
- **Paediatric critical care** – mixed EDs; Royal Children’s Hospital (statewide paediatric trauma service); Alfred ICU (statewide paediatric lung transplant program).
- **Rural, regional and retrieval** – New Zealand rural and regional practice with limited specialty support; South Island retrieval medicine including stabilisation and transport in austere environments.
- **Centres** – two of the busiest major trauma centres in Australasia (Alfred Health; Royal Children’s Hospital).

PERSONAL INTERESTS

I am a father the two wonderful daughters. I do hobbyist software development and applied AI as an extension of my clinical informatics work – noodling in Python, trying to manage full-stack web dev and indie computer game development in Godot, Unity and GMS2. I enjoy board games, science fiction and fantasy, and theatre (acting and directing in amateur productions). I was an extra in Game of Thrones Season 2!

Visit verybanana.com or natrilix.itch.io for an up-to-date snapshot of what I’m doing.
